

Memo

Date: January 12, 2018

To: Misericordia Place Residents and Families

From: Shannon Chartrand RN BN GNC(C), Director of Long Term Care
Programs

Subject: Resident Safety

You will notice we have made a change in your room. To continue our commitment to safety, we are using the top right drawer in each dresser to lock up any potentially dangerous item / substance. The key to this drawer is easily accessible and will be left on a hook in the wardrobe.

If you have any questions or concerns, please contact the Resident Care Manager for assistance.

Thank you for your continued support.
